About bonza bronz

Bonza Bronz® is a division of the Institute of Dermabrasion, a manufacturer of leading cosmetic and skin care products. We combine knowledge and experience to produce products that follow a strict safety level and environmental profile that meets today's global and regulatory demands. With over 17 years of experience our ethos is to excel in customer service and support. Our core values focus on integrity, training and strong business relationships.

In a time when we are becoming more aware of the dangers of exposure to the sun and conscious of using only the most natural of products, Bonza Bronz® tan offers men and women of all ages a UV free tanning option second to none. We use the purest botanical extracts and highest quality DHA, to give you the perfect tan without having to spend any time in the sun.

Clearly the leading experts in the market, it is no wonder that we bring you the best spray tan down under, with thousands of Australians being sprayed by Bonza Bronz everyday and now has become the No. 1 choice Spray Tan in Europe.

Our expertise is not just with the application of the tan. Bonza Bronz also has a supporting range of after service products. This product service range surpasses anything else on the market.

Make the smart choice to use Bonza Bronz, the spray tan for your salon.

Eco-conscious

Bonza Bronz ensures the environment is a priority in their manufacturing processes.

bronz
range

bronz saver • Caramel • Vanilla • Crush

Bonza Bronz Saver Body Wash will gently cleanse as it soothes and hydrates your skin. Infused with the delicious essence of vanilla bean, green tea, liquorice and raspberry, Bronz Saver is a skin and environmentally friendly, sulphate-free Body Wash.

98% natural, Bronz Saver also contains antioxidants to replenish your skin, prolong your tan and help reduce the visible signs of aging.

bronz polish • Caramel • Vanilla • Crush

Unlike most exfoliants which leave a barrier of oil or wax on the skin, Bonza Bronz Polish uses the gentle, natural texture of crushed Walnut Shell to smooth and invigorate dull skin. A water soluble exfoliant enriched with botanical extracts, the Bronz Polish does not leave a residue, so is perfect to prepare the skin before a spray tan.

bronz moist • Caramel • Vanilla • Crush

Indulge yourself with the rich and velvety Bonza Bronz Moist, a superb all over moisturizer, which soothes as it nourishes. An elixir of vanilla bean, green tea, liquorice and raspberry, Bronz Moist is rapidly absorbed leaving your skin energized.

Bronz Extend Tinted Self-Tan Crème is the most natural way to get a gorgeous healthy glow. Boasting the soothing and hydrating properties of green tea, licorice and raspberry, with Bronz Extend Tinted Self-Tan Crème you can develop a gradual tan or extend the life of an existing one. The coconut fragrance will leave you feeling rejuvenated.

tonic

The five products in the Bonza Bronz tonic range work as a system to prolong a sunless tan and moisturize the skin.

The result? **Deliverance of longer-lasting hydration and a beautiful silky tan that lasts.**

TONIC™ BODY POLISH EXFOLIANT

Tonic body polish exfoliant is a lightly foaming body scrub that will smooth, polish and energise the skin. It is a gentle water-based cleanser that allows the Bonza Bronz sunless tan to evenly penetrate the skin, helping 'set' and prolong the tan. Use before using sunless tan gels, lotions or sprays.

TONIC™ BODY SHAMPOO

Tonic body shampoo is a water based tonic that cleanses and tones your skin. Added collagen conditions, tones and nourishes. Many body cleansers contain oils that leave a filmy residue on the skin and inhibit absorption of self-tanning products, however, because tonic cleansers are water based with natural essential oils, the skin soaks up a sunless tan, leaving it feeling fresh and clean. Use daily to maintain a sunless tan and give the body a moisture bath.

TONIC™ SELF-TANNING TINTED GEL

Tonic self-tanning tinted gel extends the life of a tan if used daily or between spray tans, by maintaining a deep and even colour and to reveal more radiant and luminous skin. Absorbs quickly into the skin leaving instant colour with the inbuilt tinting properties. Non-tacky and quick drying, it is great for men and women on the go. For best results use Tonic Body Polish Exfoliant before applying Tonic Self-Tanning Tinted Gel.

TONIC™ SELF-TANNING LOTION

Tonic self-tanning lotion is a silky lotion that also extends the life of a tan with in built self tanners. Unique properties smooth the skin and moisturize, leaving glowing skin in just hours. It can be used daily or in between sessions to prolong a sunless tan. For best results use Tonic Body Polish Exfoliant before applying Tonic Self-Tanning Lotion.

TONIC™ INSTANT TANNING SOLUTION

Containing DHA90 plus, a proprietary ingredient, a darker tan is created that last longer, beyond that of most other products on the market. Bonza Bronz tonic tanning liquid is pH balanced and helps assist your skin's defence against environmental assaults that accelerate visible signs of aging.

MENTHOL

bonza
bronz[®]

Thirsty Skin, a soothing after sun gel, works not only to hydrate but to improve skin quality. Once applied it has the ability to break itself down allowing antioxidants to penetrate, nourish and hydrate the skin. The skin will instantly feel cool, which is the cellular rejuvenation process of Thirsty Skin at work. Through vasodilation, increased blood flow to the epidermis flushes toxins and re-oxygenates the skin.

Ideal for hot and humid environments as Thirsty Skin rapidly cools the skin; the nourishing properties also protect the skin. As it's a non-oily based product, Thirsty Skin will not trap sweat or dirt. The menthol leaves you feeling refreshed and the peppermint essential oil will help improve blood flow.

Thirsty Skin also contains Cacao seeds that boast so-called love chemicals and enhance feelings of excitement, ease and euphoria.

Try Thirsty Skin – for body benefits on the inside and out!

mousse

get the moost out of life

the original tanning foam

Want a healthy looking natural tan?
Make your skin glow with the
NEW Moost Tanning Foam range of
skin products.

The patented foam formula provides
a completely natural looking tan that
looks like a real tan and fades like a
real tan, not orange, not streaky.

Derived from our instant spray tan, this innovative
product creates a whipped texture for ease of application.
This non aerosol hydrating mousse instantly creates a
gorgeous glowing tan.

Moost instantly gives your skin a beautiful bronze glow.
It contains natural moisture keeping your skin smooth
and soft. This fast drying self tanning mousse leaves you
with a natural, healthy looking glow without the exposure
to the sun that will deepen in approximately two hours.

PROFESSIONAL

SHIMMER TAN

This amazing product gives you the flexibility to offer a bronzer-free spray solution to your clients who may have a special occasion to attend and are concerned that excess may rub off onto their clothes. Shimmer Tan is clear and the tan develops over a couple of hours and is fantastic for brides too! Just remember self tan depends on natural coloring as well as product formulation. Be careful to avoid over-spraying or under-spraying your clients especially since the product is clear! Application is similar to the other Bonza Bronz professional spray tanning solutions but there will be no instant visible tint. So let the shimmer be your guide!

comes in 3 types of shimmer:

choose from short sleeve or 3/4 length.

Available in Black or White sizes: 8 | 10 | 12 | 14 | 16 | 18

Available in Round Neck & V Neck.

protective moist

Applying Protective Moist Barrier Cream to hands and feet will avoid the tan sticking to any dry areas. The cream will act as a barrier and will blend in with the rest of your tan evenly.

self tan remover

To Fix a little slip up or to remove unwanted self tanner from the palms of your hands, use Bonza Bronz's brand new Self Tan Remover. Say goodbye to any unsightly stains by using this amazing exfoliant foaming wash.

travel tanning spray

If you're planning to travel away to a summer destination you should get yourself a take home Travel Spray. This professional spray-on tan for home use contains botanical extracts to keep the skin smooth and evenly tanned without exposure to the sun's harmful rays, which lead to premature ageing of the skin.

trial tanning solutions

A great way to try out 4 of our very popular colours. Each bottle will spray tan approximatly 6-7 bodies, this will be enough to use on different skin types and determine which colours will best suit your clientele.
